ALBERT KREJCI, Horticulturist

Specializing in Cacti, Mesembryanthema, Euphorbias,
Asclepiads, Echeverias, Etc.

10002 Sharp Avenue, Pacoima, California

PLEASE NOTE:

We are presenting for your convenience a list of our practical suggestions covering the best we have to offer from our gardens. Make your selection and order by letter. Unless otherwise specified all prices are listed prepaid.

An Alphabet of Our Outstanding Specialties for 1939:

A

Chamaecereus sylvestrii f. aurea. **GOLDEN PEANUT.** A beautiful, bright yellow Peanut cactus. Color never changes. Without exaggeration, the most striking plant in my garden. Now available at \$2.00 per dozen, prepaid.

B

Opuntia vestita. A highly recommended cylindrical hairy *Opuntia* from High Andes, South America. Very decorative, easy to grow. 75 cents per dozen, prepaid.

C

A group of other very interesting *Opuntias* from High Andes. Very rare, dwarf forms. *O. erectoclada*, *mistiensis*, *weberii*, *microdisca*, *soehrensensii*, *verschaffeltii*. Introductory offer, six, all different for 50c; 75c prepaid.

D

A fine mixture of dwarf to medium jointed *Opuntias*. Including: *schickendantzii*, *elata*, *rufida*, *microdasys*, *retrrorsa*, *basilaris*, *rhodantha*, *santa maria*, *erinacea leucotricha*, *scheerii*, etc. \$2.50 per 100 prepaid.

E

Grafted Cacti. An attractive collection of twelve, unusual, all different cacti, well established and growing. \$2.00, prepaid.

F

A mixture of very small Cacti for 1-inch pots. \$2.00 per 100, prepaid.

G

A mixture of very small Succulents for 1-inch pots. \$1.50 per 100, prepaid.

H

A basic collection of Asclepiads: *Stapelias*, *Heurnias*, *Duvalias*, *Ceropegias*. 12 plants, all distinctly different, my selection. 75c, prepaid.

I

10 different *Faucarias*: *albidens*, *boscheana*, *britannae*, *felina*, *haagei*, *jamesii*, *lupina*, *tigrina*, *tigrina superba*, *tuberculata*. Collection of one each, \$1.00, prepaid.

J

Mesembryanthema: a nice assortment of many different types. \$2.50 per 100, prepaid.

K

Winter blooming Mesembryanthema: plants ready to bloom are offered every winter from December to March. Colors: yellow, orange, pink, red, ruby. Budded clusters. \$2.00 per 100; \$17.50 per 1000, express collect.

L

Aloes, Haworthias, Gasterias. Plenty of different types and varieties. A very attractive collection. \$3.50 per 100, prepaid.

(Continued over)

M

\$15.00 per 1000. An assortment of an endless variety of commoner succulents. Nice, healthy, well colored plants (Crassulas, Echeverias, Sedums, Kalanchoes, Mesembryanthema, etc.) Express collect.

N

Collection GG: Growing Gems. The best we grow in best condition. 100 plants in 50 varieties. A new assortment of our multi-colored plants. \$4.00 unlabeled; \$5.00 labeled, prepaid. This collection represents the best selected from all other assortments.

O

Cactus seedlings: An attractive selection of 12 different varieties, mostly globular types. Labeled \$1.00, prepaid.

P

Euphorbias, 12 varieties, our selection. \$2.50 prepaid.

Q

Succulents as in collection GG. Labeled 75c per dozen, prepaid. A sample of N.

R

50-50—100 plants, Cacti and Succulents, assorted. 50 varieties. \$4.00 unlabeled, \$5.00 labeled, prepaid.

S

Mixed Succulents, as in collection M, as many varieties as possible. \$1.75 per 100, prepaid.

T

Chamaecereus, sylvestrii crassicaulis. A large, heavier form of "peanut" cactus, oftentimes crested. \$1.50 per dozen, prepaid.

U

Aloe beguinii. One of the best indoor Aloes. 75c per dozen, prepaid.

V

Echeverias and Pachyphytums: twelve, all different, well colored plants, labeled, better varieties. 75c, prepaid.

W

Haworthias mixed. Labeled, 75c per dozen, prepaid.

X

Aloe hybrids. Well colored. 50c per dozen, prepaid.

Y

Adromischus cooperii, Adromischus triflorus, Crassula tecta, Crassula tecta hyybrida, Crassula sp. Like miniature Archerii. This group of most interesting little plants 75c,

Z

Cylindrical and climbing Cacti (night blooming cereus, Rhipsalis, Harrisias, rat tails, etc.) 75c per dozen, prepaid.

Fill your container with rich soil up to about two inches. Fill the balance with clean sand. Plant in this sand. Water sparingly and keep in shade until plants are established. From then on plenty of light is essential for healthy growth. Root your cuttings in the same soil, but do not water until rooted.

For more information about Cacti and their culture see "Cacti For the Amateur" by Hazelton; 142 pages, 160 illustrations. Paper bound, \$1.00; postage 5c.

To have always fresh stock on hand: Arrange for regular shipment of plants at definite intervals.
